

# JOB LAND - Teaching skills and resources for improving career learning at schools

JOB LAND Project Newsletter #nº3

**DATE 30/04/2021**

**Dear reader,**

**We welcome** you to the 3rd newsletter of the JOB LAND project – *Teaching skills and resources for improving career learning at schools*, heaving the pleasure to inform you about an innovative instrument develop by the Partnership as Intellectual Output **IO3** - DESIGN MY FUTURE - Career Learning Units and Video-tutorials;

**We are happy to contribute to this set of proposals for career learning interventions for pupils, which includes materials, video-tutorials, guidelines for teachers and evaluation tools.**

D'EP Institut is in charge of creating **18 Learning Units** about career learning in primary school and also, **18 video-tutorials** in English and 5 national languages, adapted for different ages: 10-11/12, 8-10, 6-8 years old.

D'EP Institut has adapted the content of the Learning Units for guidance activities in Primary school to the current pandemic context by creating digital resources in order to facilitate the piloting in the partner countries.

### **Each Unit is described with:**

- |   |  |
|---|--|
| <ul style="list-style-type: none"> <li>- Learning outcomes;</li> <li>- Timing;</li> <li>- Activities</li> <li>- Training materials;</li> <li>- Role of the teacher;</li> <li>- Methodological framework;</li> <li>- Assessment</li> </ul> | <ul style="list-style-type: none"> <li>sheets, pictures, tools, quiz,</li> <li>information cards, maps,</li> <li>descriptions of careers and work environments, etc.;</li> <li>- A video- tutorial for pupils;</li> <li>- Short guidelines for teachers.</li> <li>- evaluation tools (such as questionnaire, form to collect feedbacks, etc.)</li> </ul> |
|---|--|

### **Also, each Learning Unit include:**

- A set of learning materials for pupils 6-12 years, such as

# PILOT ACTIONS IN PARTENERS COUNTRIES

## Another innovative result of this project are the 6 pilot actions testing the Learning Units

The second Project meeting in **Barcelona** (Spain) and the third in **Aarhus** (Denmark) have pointed to the importance of creative support activities in planning career guidance and career learning in primary school with pupils. The Partners, led by D'EP, are involved also, in **6 national pilot actions** for testing Learning Units and video-tutorials which will add value to the teaching and career learning in primary school practice. Teachers from Italy, Spain, Romania, Turkey, UK and Denmark offered feedback and suggestions after reviewing and piloting the Learning Units created, in order to assure the development of the best activities in

classroom as educational opportunities for career learning in primary school.

The full Learning Units descriptions are included in the publication DESIGN MY FUTURE.

Career Learning Units for Primary School will be available on the project website.

<https://www.joblandproject.eu/>

The video tutorials of the Learning Units will be available on YouTube.

## PROJECT CONSORTIUM
